

2014 Summer Youth Internship

Be a summer intern and make a difference!

Summer is a busy season at BLM's Campbell Creek Science Center! Come be a volunteer intern and help with programs for trail users, scout groups, families, and more. Lead games and activities for kids and families. Participate in butterfly counts, fish trap surveys, creek bioassessments, bird banding, and other resource management activities. Meet and work alongside staff to learn the skills, art, and theory of environmental education.

Internship Details

- Open to high school and college students entering 10th grade through age 25. Must attend one orientation.
- **1st Orientation:** Wednesday **May 28th** from 9:00am-12:00 pm
- **2nd Orientation:** Thursday **June 5th** from 9:00 am-12:00 pm
- Interns commit to volunteer at least 80 hours total between June 1 and August 31, 2014.
- Choose when you want to volunteer depending on your interests and schedule.
- Read assigned articles about environmental education, stewardship, and resource management.
- Receive training in customer service, how to teach programs, and bear safety.
- Record your experiences in journals, learn about your own Alaskan backyard, and share that experience with others!

Apply

Email a resume and letter of interest to Stacey Shriner at sshriner@blm.gov. **Deadline to apply is June 4th.** Call 267-1245 with any questions or for more details. First orientation begins May 28th. The second orientation is June 4th.
